## FOR MARKETERS

### **To:** Your Manager **Subject**: GrowthMentor membership request

Hey {{Name}},

I'm looking to upskill my growth game, and I've found the perfect solution!

<u>GrowthMentor</u> is a platform that allows people like me to connect easily with high-level growth marketing professionals worldwide.

I can schedule 1:1 calls with vetted mentors to discuss and improve our current strategy. I'll be able to focus on certain areas like PPC, Marketing Automation, and Content Marketing using their <u>expertise filter</u>. I can also book calls to ensure we use our tool stack to its maximum potential. Besides the 1:1 calls, I can get real-time answers from other marketers worldwide in their private Slack community and join focused mastermind groups to hone in on a particular area.

We can harness the years of expertise those mentors have and fuel our growth with it.

I've gone through <u>mentor reviews</u>, and the ROI is off the charts! They also have a <u>community networking</u> option, so I can work on getting us in front of more eyes with collaborations with other members.

I want to join GrowthMentor to network, get advice from mentors, and join the community of like-minded growth and startup folks worldwide. Membership there will help me develop professionally (and personally).

Best, ME PS-<u>here is their TrustPilot page</u>

## FOR STARTUP TEAMS

#### **To:** Your Manager **Subject**: GrowthMentor membership request

Hey Team,

I just stumbled upon something that we all need to do!

There is this platform called <u>GrowthMentor</u> that allows people like us to easily connect with experienced startup mentors and high-level growth marketers from around the world.

They are all hand selected based on their previous experience in the startup world and growth eco-system.

Members can book 1:1 calls with mentors and hear about their wins and also their failures – think of the time and money we have wasted making the same mistakes that so many others have–ugh!

They also have this super active Slack community and a <u>networking filter</u> where we can connect with other startups and marketers and get some new insight.

I'm so down to learn from people that have actually been there and done that (most of the mentors are heads of growth at successful startups).

Let's do this and get growing!

Holler back, ME PS- check out their <u>video library</u>
